

Acids and Bases (beginner level)

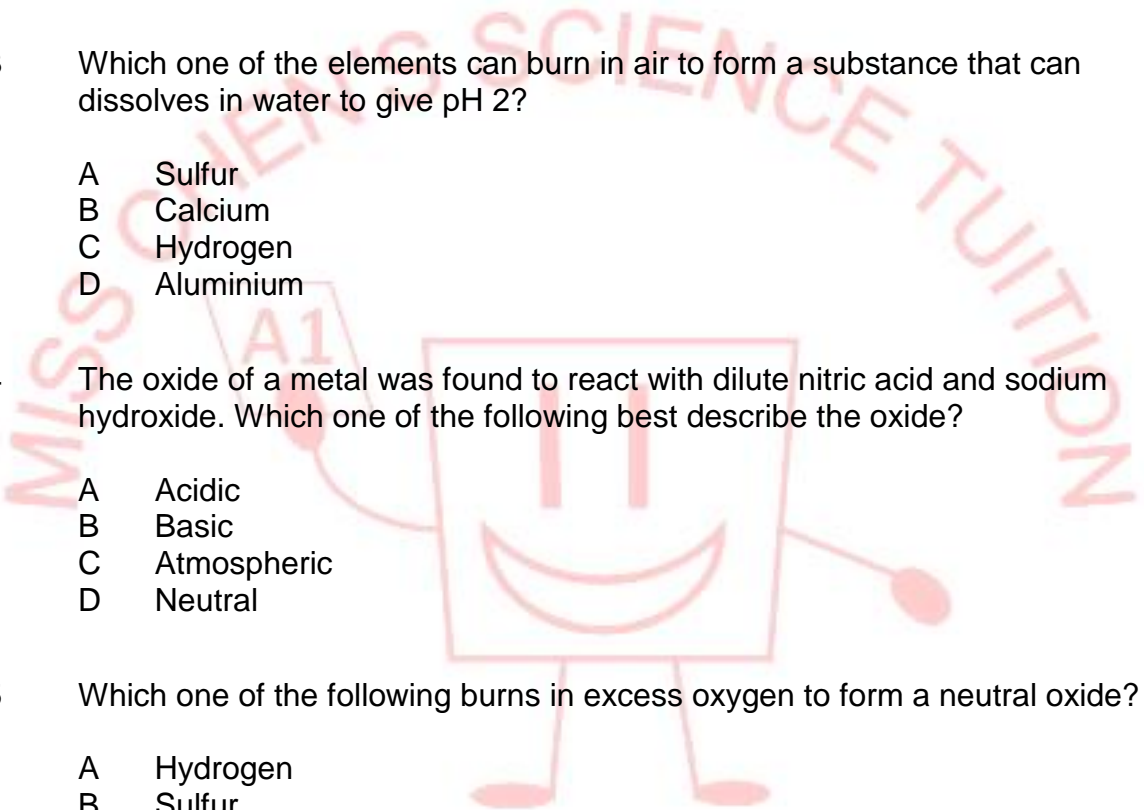

- 1 What could be the pH of a dilute solution of a weak acid?
 - A 1
 - B 4
 - C 7
 - D 10

 - 2 Which substance has the lowest pH in solution?
 - A Ammonia
 - B Ethanoic acid
 - C Sulfuric acid
 - D Sodium hydroxide

 - 3 Which one of the elements can burn in air to form a substance that can dissolve in water to give pH 2?
 - A Sulfur
 - B Calcium
 - C Hydrogen
 - D Aluminium

 - 4 The oxide of a metal was found to react with dilute nitric acid and sodium hydroxide. Which one of the following best describe the oxide?
 - A Acidic
 - B Basic
 - C Atmospheric
 - D Neutral

 - 5 Which one of the following burns in excess oxygen to form a neutral oxide?
 - A Hydrogen
 - B Sulfur
 - C Carbon
 - D Nitrogen

 - 6 Which one is true of all dilute acids?
 - A They can react with any metals.
 - B They can turn red litmus blue.
 - C They can react with ammonium salts to give ammonia gas.
 - D They react with any bases.
- 

- 7 Which one of the following is the best option used to neutralise excess acid in soil for farming?
- A Ammonium chloride
 B Calcium hydroxide
 C Potassium hydroxide
 D Sodium chloride
- 8 What is the best method to differentiate aqueous sodium chloride and dilute hydrochloric acid?
- A Add calcium carbonate.
 B Add moist red litmus paper.
 C Add aqueous sodium hydroxide
 D Add aqueous ammonium nitrate
- 9 Which compound can react with carbon dioxide?
- A Calcium sulfate
 B Calcium chloride
 C Calcium nitrate
 D Calcium hydroxide

10 The table below gives information about three indicators.

Indicator	colour changes	pH at which colour change takes place
A	Red to yellow	5
B	Colourless to pink	10
C	Yellow to blue	6

What are the colours of these indicators in pure water?

	A	B	C
A	Yellow	Blue	Colourless
B	Blue	Pink	Colourless
C	Yellow	Colourless	Blue
D	Colourless	Pink	Yellow

11 Four aqueous solutions have the pH values shown in the table.

Solution	A	B	C	D
pH	3	5	9	14

If two solutions are mixed, which pair must give an alkaline mixture?

- A C and D
 B A and C
 C A and D
 D B and C

12 Which substance can be used in excess to change pH in soil from 3 to 7?

- A Sodium hydroxide
- B Calcium carbonate
- C Calcium chloride
- D Nitric acid

13 Dilute nitric acid can react with both sodium oxide and sodium carbonate. In which way are these two reactions alike?

- A Gas is formed.
- B Hydrogen is formed.
- C Carbon dioxide is formed.
- D Water is formed.

14 Which statement is true about ammonium salts?

- A They can react with acid to produce ammonia gas.
- B They can react with carbonate to produce carbon dioxide gas.
- C They can react with alkali to produce ammonia gas.
- D They can react with metal to produce hydrogen gas.

15 Oxides of elements may be classified. Which option shows the correct classification?

- | | Acidic | Basic | Amphoteric |
|---|------------------|----------------|-----------------|
| A | Carbon monoxide | Zinc oxide | Aluminium oxide |
| B | Sodium oxide | Carbon dioxide | Calcium oxide |
| C | Zinc oxide | Sulfur dioxide | Sodium oxide |
| D | Nitrogen dioxide | Calcium oxide | Zinc oxide |

16 Which one of the following oxides has no reaction with dilute nitric acid?

- A Carbon monoxide
- B Carbon dioxide
- C Sulfur dioxide
- D Potassium oxide

17 Which one of the following statement is a property of hydrogen chloride gas?

- A It is a conductor of electricity.
- B It can turn dry blue litmus paper red.
- C It can form a solution in water that has pH lesser than 7.
- D It has high melting point.

18 Which statement is true about bases?

- A They are all soluble in water.
- B The soluble bases can form hydroxide ions in water.

- C Bases and alkalis are all oxides.
- D All metal oxides are basic oxides.

19 Which compound gives the highest pH in solution?

- A Potassium hydroxide
- B Sodium nitrate
- C Nitric acid
- D Ethanoic acid

20 Which property is not typical property of an acid?

- A It burns in air.
- B It reacts with magnesium.
- C It reacts with copper (II) oxide.
- D It conducts electricity in water.

Answers:

1. B	2. C	3. A	4. C	5. A	6. D	7. B	8. A	9. D	10. C
11. A	12. B	13. D	14. C	15. D	16. A	17. C	18. B	19. A	20. A
